

# Mobile Device as a Service

## Making mobile a seamless experience

With Stratix Mobile Device as a Service, you get a complete solution including the hardware, deployment and managed support services with analytics, from a single source for predictable monthly spend. Our extensive partner ecosystem and flexible service options provide an easy way to implement and manage your unique mobile program.

### Mobile Device as a Service (MDaaS) includes:

- **Technology Procurement** – Smartphones, Tablets, Rugged, Printers, Scanners, Mobile POS, Accessories and more
- **Convenient Financing** – We partner with top financial companies like Apple Financial Services, Huntington Technology Finance and others
- **Deployment** – Staging, Provisioning and Kitting an “out of the box” ready program, with distribution to multiple locations – at scale
- **Device Replacement & Repair** – Spare pool provisioning with overnight delivery of replacement devices with the Advanced Exchange option
- **Warranty Break/Fix** – Seamlessly manage all break-fix activities and SLAs in your tailored warranty and repair program
- **Asset reporting** – See all devices, procurement history, deployment tracking, break/fix status, spare pool levels and all device lifecycle touchpoints
- **Asset disposition** – Resale, eco-friendly recycling or refurbish end-of-lease options

## Why Stratix

- **Reputation of Excellence:** Complete end-to-end lifecycle services delivered onshore, under one roof – your one-stop, single pane of glass
- **Flexibility and Choice:** We’ve thought of everything, so you don’t have to – customize your Mobile Device as a Service solution to fit your needs and desired outcomes
- **Future Proof:** We are the most experienced mobile logistics experts, keeping your mobile technology up to date and working for you

## Outcomes We Deliver

### Improved Cash Flow

Preserve capital for strategic initiatives with a fixed monthly cost per device including all hardware, support and services

### Accelerate Time to Market

Launch large and complex projects quickly and on-budget

### Reduce Resource Burden

We make the everyday logistics of managing your mobile enterprise easy
